# Kelly Dot Jones

I am a 25 year old woman from South Africa, living in Wales and I am sociable, hard-working, and both enthusiastic as well as passionate in whatever I do. I am loyal, creative, logical, and at times, a slight perfectionist. However, if you want to see the full me, go to my online portfolio.

## Skills

These are the major technical skills that I have gained. Some through education, others experience and some self taught.

### Game Development

UNITY

3DSMAX

### Programming

C++/C#

JAVA

### Web Development

HTML/CSS

JS/PHP

### Adobe Programs

PS/FL

AF/PR

## Work Experience

Where I have put my efforts in throughout the years.

2017

### ArtFestival Co-Ordinator

iMPAC

Part-time

I was fortunate to be part of the team that organised this event at the Open Window Institute for it's 5th iteration. My role was ensuring that there was enough artists, films and installations for each day. I too helped artists get to the venue and back.

2019

### Technical Lead

Alacrity Foundation

Full-time

The organisation that aims to train graduates to become future tech entrepreneurs. I gained new skills in public speaking, from the numerous panel updates and presentations, team cooperation, and product validation.

2019

### Technical Director

Mela Insights

Full-time

My major role in the company was being responsible for the technical development. I contributed to developing the product from scratch, heading up the design, such as wireframes, all the way through development.

## Freelance Work

2013-16

### Web Developer

Boake Inc

Freelance

I was able to take a company like Boake Incorporated and promote their online presence. Boake required an uncomplicated but informative website where content was priority but the company culture had to be portrayed through the website too.

2018-19

### Web Developer

Cherry Tree Cottage

Freelance

Cherry Tree Cottage is a bed and breakfast in the countryside of Edinburgh. It is a simple yet informative website that allows people to have a bit more of a feel of the place before they arrive.

2019

### Web Developer

Clean Machine Jhb

Freelance

A small start-up that is planning to move their business forward, wanted a simple website to get awareness out. Just a one page website that gives an overview of what services they can offer their clients.

## Qualifications

What I have been teaching my brain.

### Courses

01 ICDL  
2010

02 ILM Level 5 NVQ  
Currently Doing

03 Unity Game Dev  
Currently Doing

### Programmes

01 Alacrity Graduate  
2018-19

02 IBMT Accelerate  
2019

### Secondary Ed

01 National Matric  
2012

### Tertiary Ed

01 BIS Multimedia  
2016

02 BAHons Film Arts  
2018

# Portfolio

My collection of creative work throughout the years.  
To see them all, go onto my website.

## FILM

### Jelly Bean Production

This film is a continuous loop portraying the production of jelly beans. Each jelly bean goes through stages as they get older, making sure only the perfect jelly beans are packaged. It is a reflection on today's society.

### Poly Series

A few extra short films, experimenting with water effects in a poly world. Using poly made up trees and environment is touching on our journey, which is often unknown. We are the only light to guide us or push towards each direction.

### Caws Bach Melyn

This is a short animated film on a Welsh folk tale about a little yellow cheese that goes on a journey. This short film was part of my postgraduate year and is a simple 2D film that helped me explore my heritage.

### Mr Jones & I

This ancestor project was made to discover more about our past and how our ancestors make up who we are. We were to find a picture of a significant ancestor and bring it to life by putting ourselves in it.

### The Ferris Caretaker

A small personal project experimenting with 3D animation and film. A short film about a man who is cleaning up an old fun fair to find a magical leaf that shows him what the place could look like, almost like his dream.

## GAME

### Jailer Jim

Jailer Jim was a collaborative project in my final year of my undergraduate. The team decided to create a puzzle game which was set in a future time where robots have been jailed. Jim and a few other robots attempt to escape.

## VR

### Innocence

My final year project during my postgraduate in film arts was a VR film. I created an interactive virtual reality film that related to my dissertation, nostalgia. Using a Samsung VR Headset and headphones, you would be taken back to my childhood home.

## CHARACTERS

### Robot Series

After the creation of the game Jailer Jim, I produced a few shorts to illustrate some of the characters. This series is just reveals of each character and a few of their animations they do.

# More On Me

Just a few things I guess you would want to know

## 01 Hobbies

What I do in my spare time

### Baking

Anything from sweet to savoury, extravagants to classics, I like to start from scratch and produce delicious pieces.

### Hockey

It is more than just playing outside in the freezing cold, it's about being part of a team and getting some exercise.

### Reading

Reading for me is the best way to learn new things from experts and people who have opinions that can make you think twice.

### Podcasts

I use podcasts to keep updated with new tech and trending topics. It's the best way to entertain commutes and runs.

## 02 Awards

A few things I am proud I have achieved

### Half Colours

After achieving two gold medals at the South African Championships for Rowing, the school I awarded me with half colours.

### House Captain

In my final year of high school, my peers voted me in as the representative for our school house, Louards.

### Sports Captain

My university residence, Nerina, voted in as sports captain due to my continuous involvement with multiple sports

### 35 Under 35

Media provider, Wales Online, chose my co-founder and I to be in the top 35 under 35 business woman in Wales.
